- 5.2 Football Notice of Motion – brought forward from Committee at the AGM
- Motion to accept the motion as presented below
MOTION CARRIED

Notice 24: Policy - Section III – Eligibility – A. Student Eligibility, Participation on a Non-School Team, page 37-38; and Section XIII – Football, B. Season of Play, page 91

Current:

Participation on a Non-School Team

1. To be eligible for high school provincial competition in the ASAA sports of basketball, volleyball, football, cheerleading, team handball and rugby, a high school student is not permitted to play on a non-school team in the same sport during the same season...

Section XIII – Football B. Season of Play

The season of play for football shall be May 1 to the Provincial Championship...

Proposed:

Addition in both sections of policy:

In the sport of football, high school students will not be eligible for high school football if they participate on a community (ie. midget) football team that overlaps ASAA season of play and which does not follow the policies outlined below:

a) Only sixty percent (60%) of a midget team's players can be enrolled in one particular high school team. For clarity, sixty percent (60%) quota applies to Grade 10 and 11 players from any particular high school football team. This applies to Midget teams that ASAA eligible student athletes participate on immediately prior to the ASAA Football Season of Play in the spring.

b) Reporting – zone secretaries will be responsible for getting the rosters of the midget teams in their area, that will list the names of the athletes and what high school football team they play for. Zone secretaries will then report to the ASAA if there are any teams/players not adhering to the above rules.

c) Penalty – Any school team that is in violation of these rules will be deemed ineligible to play in any ASAA high school football match.

(Editors note: there has been significant discussion since the APM on this motion and further proposed changes will be brought forward at the AGM in May, 2013)

Rationale:

This is being brought back to the ASAA Board for a vote, following the decision of the Board at the 2012 AGM to move this item to a committee for further discussion. Upon convening a committee, the motion was re-worked and a compromise favourable to the committee has come to the floor.

The reason for this notice is so that midget teams do not simply become a tool for school teams to effectively extend their season of play by having a large majority of their players participating on the same community midget team and then begin ASAA Season of Play with a good two months or more of preparation ahead of other school football teams. Further, as the ASAA Board was concerned about the fact that ASAA has no governance over community sports groups like midget football, this motion makes compliance with the new policy a school and zone issue, not a midget football issue.

ASBA: Anne-Marie Boucher reported on attending a Health and Nutrition conference in September to tie in the healthy lifestyles in schools

ATA: Patrick Loyer addressed ongoing issues with some zones for exemption from Teacher's Conventions to attend Zone finals; Central-East now allowing Friday afternoon off, and letters will be written for teachers in Mighty Peace region
