Re: Unified and Para in Track and Field Zones

Dear ASAA Member Schools:

With Track and Field Zone Championships coming up I wanted to remind member schools and zones that there are Unified and Para Events in ASAA 2022 Track and Field Provincials. Only two Unified teams per zone in the Multi event (turbo Javelin, Long Jump, 400m), and two T20 (Intellectual Disability) athletes (per gender) in the Para events are allowed to qualify per zone. This means some zones will need to schedule a qualifying event for these two categories. Typically this occurs at your zone championship.

Your two choices for qualifying events are:

- 1- To have these teams come to your zone championships and have a qualifying event for them or
- 2- To have the Unified/Para coach submit event times/distances for their athletes and the zone will choose representatives that way.

No matter what way you choose to qualify them, all Unified and Para athletes must register with their zone before the Provincial deadline.

A reminder that the ASAA office currently has both racing wheelchairs and throwing frames. If any school/athlete would like to borrow one to train for provincials please contact the office ASAP. ASAA will send these to our member schools with no cost to the school.
